Help & Support

Dear User,

If you would like to report someone, please observe the following steps to ensure that your concern is noted. It is advisable to create a post on the **Wildfire Games Forums** detailing the incident.

When reporting a player, it is mandatory to upload the correct replay.

Instructions:

- 1) Locate replay at Main Menu/Multiplayer/Replays
- 2) Select replay and note replay file path.
- 3) Go to path in your file manager, locate the file named "commands.txt"
- 4) Upload commands.txt to the Forums (account creation required). *For guest users viewing this!*
- 5) Tag moderators [@user1](#) [@Hannibal_Barca](#)

Execution of these steps will lead to your report being noted and filed, then inspected and processed. (in due time)
You will not be notified of the result automatically, you may inquire at the involved moderators.

(This list will be released in .pdf format once a month.)

Wildfire Games thanks you for your co-operation and wishes you happy gaming.
